

## Something To Say

Verse 1:

So many pleading  
So many needing a friend to turn to  
So many fallen  
So many calling for help – they need you

You wonder if you'll have the words they need  
You say, "How could God use somebody like me"

Chorus:

He'll give you something to say  
Something to pray  
He already knows what the hurting need  
When He brings them to you  
All He wants you to do  
Is listen and let him lead  
So love and live the grace He gives  
And point them to The Way  
And when they're ready to hear  
You'll have nothing to fear  
He'll give you something to say

Verse 2:

Tell them of mercy  
And tell them your sure He forgives whatever...  
Tell them of grace  
And then tell them the place where it lives forever

Just open The Word and The Word will speak  
Hope to hopeless and strength to the weak

Repeat Chorus
