

Faith Lyrics

He Will

Words & Music By: Chris Binion

Featuring Tim Dill

Verse 1

I'm not worried, I'm not concerned.
Through all of the years and all of my tears
There's some things that I've learned.
Understanding may not be my closest friend,
But trusting God will guide me safely through the storm I'm in...

Chorus

You've got to have faith to survive the raging storm.
You've got to believe that He'll keep you safe from harm.
You've got to know without a single doubt that God delivers still.
'Cause faith is not believing that God can – it's knowing that He will.

Verse 2

All things are working for my good.
Through all of the miles and all of the trials the Lord has understood.
Overwhelming though many times you've prayed,
Just know that God has heard you and your answer's on its way...

Chorus

You've got to have faith to survive the raging storm.
You've got to believe that He'll keep you safe from harm.
You've got to know without a single doubt that God delivers still.
'Cause faith is not believing that God can – it's knowing that He will.

Repeat chorus
