

# I See A Mountain

## Chorus

I see a mountain that I'm about to climb  
There's a valley here I'm leaving far behind  
I know I'll make it with Jesus as my guide  
I'll climb this mountain and cross to the other side

## Verse 1

I've been down in the valley low so long  
It's been a while since I've sung victory's song  
I feel the spirit rising up in me saying to press on  
I'll keep on walking until I make it home

## Repeat Chorus

## Verse 2

Well, the devil's tried to tempt me all the way  
He's tried to make me doubt and be afraid  
But I claim victory over Satan when I say "Get thee behind"  
For there's a mountain that I'm about to climb

## Repeat Chorus

## Bridge

I'm going to take that mountain  
Everyday I'm climbing higher still  
If I fall then that won't stop me  
I'll get back up and start to climb again

## Repeat Bridge

I'm going higher, higher, higher, higher

## Repeat Chorus

I'm going higher, higher, higher, higher  
I'm gonna take that mountain
