

# Tired Of Running

## Verse 1

Drifting aimlessly, squandering foolishly  
Everything I had left to my name  
Traveling to and fro, but the way I chose  
Would soon leave me lost and so ashamed  
I've had my share of lonely days and dark, dark nights  
But I finally see the light

## Chorus

I'm so tired, (tired, tired) of running  
Oh, sweet Lord, (Lord, Lord) I'm coming  
Home to you, (you, you)  
My wandering days are through  
Won't you please, (please, please) forgive me  
On my knees, (knees, knees) I'm living  
Until you redeem, (deem, deem) the sinning I won't move  
Lord, I'm done and tired of running

## Verse 2

Now I finally see the path He's laid for me  
And it looks so much different than before  
All those times I'd roamed feeling all alone  
Could not add up to what He had in store  
Just like me one day you'll claim the victory  
If with a willing heart you'll plea
