

I Quit

V1:

I've tried and tried and I can't try again
To make it on my own so why pretend
My best laid plans slipped through my hands
And crashed upon the floor
Now I'm just too tired to fight it anymore

Chorus

I quit, I give up, I give everything to You Lord
Take my heart and do what You and You alone can do
I'm ready to surrender and I'm willing to admit
I cannot begin again until I quit

V2:

For me to truly live I first must die
And know that I am crucified with Christ
Then live each day by simple faith
In the power of the cross
And count my every earthly gain but loss

Chorus

Chorus

I cannot begin again until I quit
