

I'm Over What's Under the Blood

Verse 1

That old accuser forgets who I am
He's blind and he can't see the blood of the Lamb
So he tries to remind me of my old life of sin
But each time he does I remind him again (that)

Chorus

I'm over what's under the blood
I'm past what is past
And forgiven for good
There's no looking back for the cross was enough
I'm over what's under the blood

Verse 2

Sometimes I wonder how God can forget
The wrongs I have done, that have caused such regret
But I know He has covered everything I've confessed
And cast them as far as the east is from west (so)

(Repeat Chorus)

Bridge

I'm finished with fear
I'm done with defeat
I'm through with thinking God cannot use me
I let go of lies when I took hold of grace
I got over guilt on the day I got saved

(Repeat Chorus)
